

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE idea of publishing the Register of Harrow School originated with my colleagues, Mr. E. W. Howson and Mr. E. Graham, and has been carried out by Mr. R. Courtenay Welch. It has not been free from difficulty, for the Admission Book before the time of Dr. Longley has been lost for many years, and it is only since the beginning of Dr. Vaughan's Head Mastership that the record of boys admitted to the School can be said to be complete in all its details. The result is that, although an attempt has been made to carry the Register back to the first year of the present century, there are naturally a good many gaps in it ; but it is hoped that the publication of a tentative first edition will be the best way of leading to a second edition, which will be largely improved and extended. At all events, the thanks of Harrovians past and present are due to Mr. Welch, and to other friends of the School who have worked with him. The Register will in future be reissued at stated intervals of time, and it will be kept as far as possible up to date in the information which it supplies.

HARROW SCHOOL,
May 28th, 1894.

NOTE BY THE EDITOR.

SOME apology seems to be due for the long delay which has taken place in the publication of this book, and the following particulars may, therefore, not be without interest :—

When, in the Spring of 1891, I was invited by a Committee of the Masters of the School to undertake the work, the number of names to be dealt with was estimated at about 6,000, and little more was proposed than a reprint of the Entrance Books, with the addition of such particulars as could be derived from the various School Records, or obtained from living Harrovians and from the friends of those who had passed away. As the work advanced, however, it was found that the number of entries exceeded 10,000 ; while the difficulty of preparing the list was very greatly increased by the imperfections of the earlier records. Dr. Drury's Entrance Book gave only the surnames. The Entrance Book covering the period of Dr. George Butler's Head Mastership has long since disappeared, and the lists between the years 1805 and 1829 have been compiled, as explained on p. 17, from the few Bill Books which are still extant. Dr. Longley's entries are more complete, the Christian names being given in full, the House Master mentioned, and short notes often added, which have proved most valuable in tracing the names. Dr. Wordsworth gave further particulars, the address and, in some cases, the father's name being mentioned. But there is reason to believe that in all these earlier lists the names were often entered before their owners actually joined the School, and this seems especially to have been the case when two or more brothers, of very different ages, were entered together. Many names too have, undoubtedly, been altogether omitted. It is well known that Mr. H. E. Hutton made his own entry many years after the event, and the name of Mr. C. S. Roundell (then Currer) is not to be found in any of the Books. From Dr. Vaughan's time the lists contain, in most cases, all the information necessary for such a work as the present, though it has not always been easy to determine whether the name of the father or guardian is given.

Fortunately there was in existence a fairly accurate record of the addresses of upwards of 4,000 Harrovians, and the returns, some 400 in number, received when the Register was originally proposed in the columns of *Harrow Notes*, early in 1884, had been carefully preserved. It has, therefore, been possible to send out to old Harrovians and others a very large number of circulars asking for the necessary information, the letter from the Head Master, which appeared in the principal newspapers in August of 1891, bringing in applications for about 700 of these forms.

The returns, however, proved very disappointing; in many instances changes of residence rendered the delivery of the letters impossible, and in upwards of 500 cases the application, though apparently received, elicited no reply, a fact which must explain the absence of particulars under several well-known Harrow names.

Rather, therefore, than allow the Register to appear in so skeleton a form, it was decided to defer the publication of the work until, by exhaustive research, the gaps should, as far as possible, be filled, and some information given under every name to which any clue could be obtained. For this purpose numerous works dealing with Harrow history have been carefully studied, and for much valuable information I am indebted to Dr. George Butler's annotated Bill Books, to Mr. P. M. Thornton's "Harrow School and its Surroundings," and to Mr. Torre's "Recollections of School Days at Harrow." All available works of reference have also been consulted, and for the loan of many of these I have to thank Mr. Tylston Hodgson, Mr. J. A. Cruikshank, Mr. E. K. Ridley, and others. For the most valuable assistance in prosecuting this research, in preparing the work for press and revising the proofs, I am deeply indebted to four old Harrovians, who for the last eight months have spared neither time nor trouble in the service of the Register. My only regret is that I have not permission to add their names. My thanks are also due to Mr. B. P. Lascelles for his aid in deciphering the earlier lists, and to Mr. E. Graham who, from first to last, has rendered me very valuable assistance.

That the time for the publication of some such work as the present had fully come is sufficiently proved by the fact that application for copies of the Register have already been received from upwards of 1200 old Harrovians. To none of these will the imperfections and shortcomings of the work be more evident than to myself; but if my 1200 critics will report the omissions and mistakes they severally condemn, not to me—for the pressure of other work has compelled me, with much reluctance, to resign my Editorial duties into other hands—but to Mr. M. G. Daughlish,* than whom no Harrovian is more competent to carry on the work, there is little doubt that the second edition will be, in all respects, worthy of those whose history it records, and of the School whose name it bears.

*Head Master***THE REV. GEORGE BUTLER, D.D.***EASTER 1806—EASTER 1829.*

The lists of entrances between April 1806 and April 1829 can only claim to be approximately correct. Unfortunately Dr. Butler's entrance book was lost many years ago, and the following lists have, therefore, been compiled from a careful comparison of such School lists as are still extant. These lists, unlike our present Bill Books, were never official publications, but appear to have been made by the boys themselves; presumably as they listened to the calling of the Bill, for the spelling is, in many cases, purely phonetic. As initials were seldom, if ever, given, it has been found impossible to identify all the names. Many boys, too, undoubtedly entered and left the School between the Terms of which any record exists, and in these cases it has not been possible to trace or include their entries.

From 1675 to 1804 the names are those of "The Orators," who were presumably, but not certainly, Heads of the School.

It is requested that any one who can supply the missing names from 1675 to 1793 will kindly communicate them to the Editor.
